Quote: 041800JB-01

Reference: HOC2 2x1x10 Replacement

TOTAL NUMBER OF PAGES (including cover): 1

Dear Bob,

Thank you for your request to quote replacement pumps and your patience, I must apologize for the delay in finalizing this quote. The pumps we are offering will be an exact duplicate of your current Model HOC2 2x1x10 (reference S/N 880792), constructed with 316SS, including grease lubrication, John Crane type 1 seal XF171, flush gland, and Plan 11 flush with 316SS tubing. The impeller will be trimmed to 9.5" based on 52 gpm at 104' TDH.

Your net price for these bare pumps is \$5,395.00 each.

This price is based on a delivery time of approximately 8-10 weeks ARO. Terms are Net 30, FOB factory, Chesapeake, VA, freight prepaid and added.

Thank you for this opportunity to quote. If you have any questions we will be happy to discuss them with you. Please feel free to contact me by phone or fax at the numbers shown above.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jack P. Brynildssen", is written over a horizontal line.

Jack P. Brynildssen
